

Charter Choices — for *sustainable*¹ aviation

¹*Sustainable* — From our people to our services and processes, Jet Aviation supports sustainable solutions and options to ensure everyone can choose to be part of a better shared future, anywhere, anytime. Safe. Clean. Responsible.

100+ charter aircraft.
9 global operation
centers. The *choice*¹ is
yours. SAF. Book &
Claim. Carbon Offsets.
Recycling. Reduced
plastics. Local sourcing.
ISO 14001 standards.
Lighter cabins. LEED
buildings. Solar panels.
Electric cars, and more.

¹ *Choice* — supporting sustainable aviation to meet the
needs of today, and those of the future.

Making Charter Sustainable.

Being a good corporate citizen is a part of everything we do at Jet Aviation. From our people to our processes, we make decisions that help shape sustainable outcomes for our customers, our businesses, the communities we serve, and our industry.

With a fleet of over 100 charter aircraft and access to thousands more, no journey is out of reach for us. Wherever you want to be, Jet Aviation can help get you there — seamlessly & sustainably.

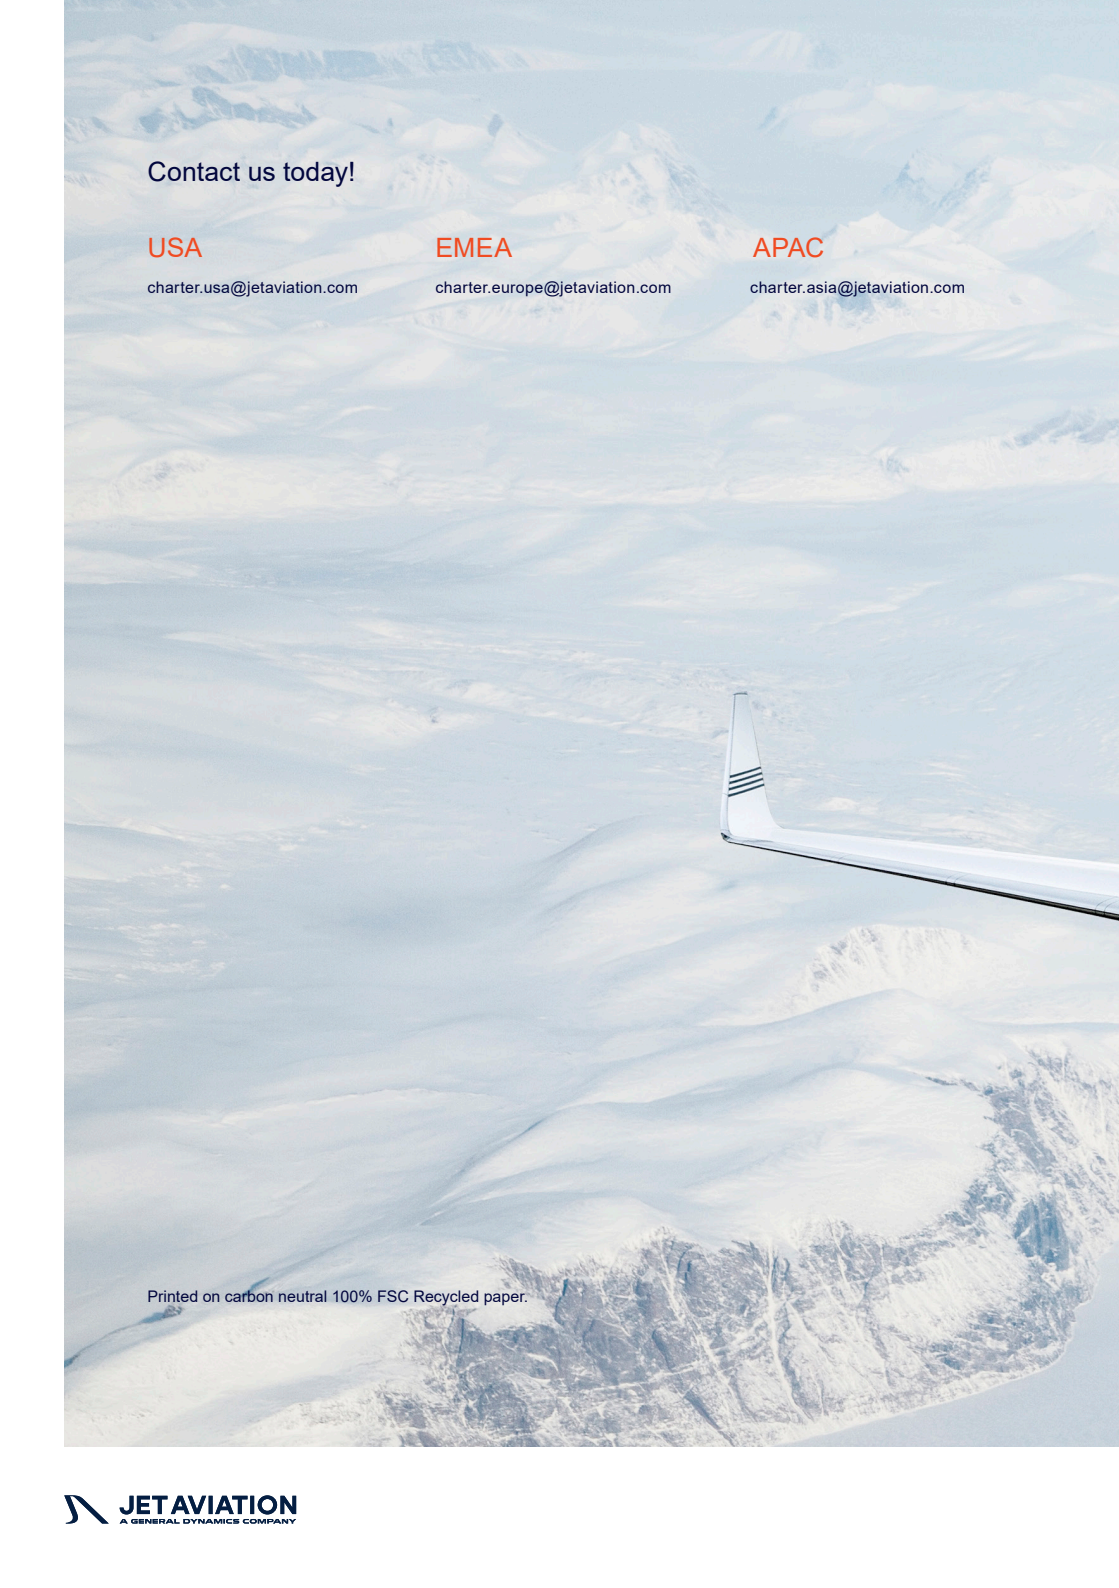

Tailored to your needs.

We know private charter offers the flexibility, safety, privacy and efficiency you require, and we are committed to meeting your needs with all the available options. In full support of the industry's sustainability goals, we are collaborating with partners and investing in solutions that provide business aviation owners and operators the choices they desire, so they can choose how to contribute to sustainable aviation.

We offer a full suite of services for a wide array of aircraft types, all backed by the highest quality standards.

The choice is yours. Contact us today to learn more!
